ISAN is a premier computer educational institution in the country offering high quality and cost-effective professional training. Our endeavor has been to engage in Quality Computer Education and to render ever-satisfactory service to the IT community and there by the Indian society profitably. The principle business of the company is the provision of IT training in computer Hardware and Software to meet the ultimate needs of the student community and the corporate sector.

We started operations in the year 2005 and have continued to grow exponentially since then. ISAN's business has grown at 65% CAGR year after year. During this phase, ISAN had been successful in carving its goodwill in the industry. As a result, some of the renowned Fortune 100 organizations rely on ISAN for catering to their manpower requirements. Managed by a young and dynamic work force, ISAN's clientele include major Computers Manufacturers, Indian & MNC Software Development companies, and Government Undertakings, Financial Organizations and Corporate houses.

Our focus is mainly to train students in the courses, which are industry oriented, and offer the industry with a pool of well-trained manpower. For a person aspiring to build a career in IT our courses will open new and greener pastures for high profile career opportunities. Students are provided with comprehensive courseware, quality training with industry relevant lab exercises with value additions like Audio and Video sessions, Computer based packages, seminars, Workshops, Demos and guest lectures by experts in the IT field.

The philosophy of ISAN has been to develop outstanding professionals in Computer Hardware, Networking and Software to meet the challenges of IT industry. This philosophy in mind, we have already introduced A+ training in Hardware, N+ Training for Networking, Microsoft, Cisco, Oracle,vmware,auto cad,pro-E,Catia,Linux and UNIX Certification and AllSoftwareCourseslikeComputerBasics,CLanguage,C++,Java,WebDesigning,.NET,Android,mult imedia,sql server,php/flash,2d and 3d animations and etc .Incidentally, we are the pioneers to the internationally certified courses in the country.

ISAN offers unparalleled training solutions through each of its franchisees around the country. The company is dedicated to providing enriched training solutions to businesses and individuals that enable lifelong learning.

Starting with the End in Mind

In today's fast paced, technology charged, competitive world, having a business partner that focuses on achieving your goals and objectives is refreshing - it is also necessary, if you are going to stay ahead of the curve. At ISAN - we start every business relationship with the end result being top of mind.

Measurable Results

We are in the business of increasing productivity through people, partnership and technology and we take that role very seriously. We partner with you, and commit to delivering value through measurable results.

You will never pay more for our service than you believe to be its ultimate value. Should our services not meet your expectations fully, you have the right to establish the final price.

Founded on the Principles of Productivity

ISAN was founded with the core principle that organizations and people are at the highest level of productivity when they are working with the right skills and behaviors, using the best processes and technologies, and staffed at the right time based on work requirements.
Since ISAN was founded in 2005, we have been concentrating on solving business problems. We start by analyzing business needs and pinpointing how ISAN can best help to achieve an organization's strategic intent.

Operating for the past 11 years, we conduct needs analysis, visioning sessions, and understand business requirements to help improve the productivity of organizations. We cannot help solve a problem or apply a solution until we can accurately understand your needs.

We aim to achieve optimum productivity, performance and profit standards through effective use of people.

A formidable part of ISAN's strength and leadership lies in our proven ability to diversify business offerings in response to the various needs and requirements of the organizations we work with.

Recognized as an Industry leader for our expertise in enabling companies to improve their profitability and productivity through our Flexible solutions in staffing, permanent recruitment, Training and Development, and Innovative Technologies, ISAN's expanded network of services includes specialized divisions to meet diverse marketplace needs.

While ISAN is identified in the industry as IT Training Company, we are much, much more than that.

Our experienced team of professionals with a wide range of industry and functional backgrounds work with you to forge a strong and lasting partnership. At ISAN, we view each client and every individual we work with in a unique light and tailor-make productivity programs that work.

ISAN's Core Values
- Exceed service expectations
- Ensure client satisfaction
- Be customer-driven
- Be cost-effective

Why ISAN?

ISAN develops markets and delivers training and instructional products related to sophisticated information technologies. The company provides its products and services through instructor-led courses, and corporate training. ISAN markets its services to information

management systems professionals, system integrators, value-added resellers and others with systems management responsibilities. Please visit our Web site at www.ISANL.CO.UK for additional information.

Since 2005, ISAN Computer education Centers has grown to become the largest independent IT training company in IT field in India. We offer more courses, with more affiliations than any other company in the computer training industry. There are many reasons, but most important are the Technological, Financial and Quality imperatives

1. We are the pioneers in IT certification training in India.

2. Training with Certified Faculties is a core competency for the last decade. We have an in house research and development department that interacts with the industry recruiters and experienced professionals on the field for regular inputs to the course curriculum.

3. Global partnerships with key market leaders like Sun Microsystems, Microsoft, CISCO, Oracle, HP, SCO, Novell, Apple and VUE to bring the best of the technology under one roof.

4. World-class technical expertise based on our quality instructors & delivery methods ensure excellent training at our centers and corporate venues.

5. We have implemented large scale projects of Scalable solutions on network consultancy, software development in India and abroad and have the expertise to back your efforts in these directions too.

6. Industry-leading custom content development for hands on training in the classroom including onsite labs for real skill transfer to corporate.

7. Regular upgrades in course contents and course materials in line with the breakthroughs in IT industry.

8. Reputation for Quality
We have a strong reputation among employers, who hire our graduates as a training organization that prepares students to evaluate situations, analyze solutions and apply practical knowledge to produce effective results.

9. Our Faculty and Teaching Methodology
ISAN's faculty of instructors is comprised of Superior, Certified Instructors who are highly skilled, dedicated professionals who possess expertise in their chosen field, and teach using curriculum designed to prepare students with real-world, hands-on projects and labs in a blended learning environment

10. Exam preparatory sessions: ISAN has training and certification resources that provide a unique learning experience for IT Professionals who are serious about taking the next step in their career. Exam preparatory sessions ensure that we have the maximum pass percentage in the Training Industry. The industry's most genuine placement guarantee. For those students and IT professionals preparing for a certification exam, ISAN exam Prep provides the simulation environment that can effectively assess your test readiness and prepare you to pass your exam the first time.

11. Certification and training in less time for less money:
Our goal is to provide the highest quality training that enables a person to start or enhance their career as an IT professional, in the shortest amount of time. Our difference lies in the quality of our courses, delivery, infrastructure and instructors.

12. Quality Instruction:

At ISAN, our instructors provide a high quality, interactive and productive learning experience for students. A rigorous training program ensures that our instructors follow strict guidelines to consistently deliver a high level of instruction. Our instructors are regularly tested and students complete an evaluation at the end of each course. We require our instructors to maintain a 92 percent or higher approval rating.

13. Accelerated Training and Certification:

ISAN has developed an innovative method of training that involves hands on experience in a given technology. The end result is accelerated training that leads to greater retention of subject matter. The proof of our accomplishments is in having the industry's best success rates on Microsoft, Cisco and CompTIA certification exams

Strategic Partnerships and Alliances that create True Value

ISAN always seeks partnerships with large, Multinational market leaders in technology and Education services. We have an executive-level management group dedicated to creating and servicing strategic relationships. We enter into alliances to impart our students the very best in technical training on the products or intellectual property of our partners.

ISAN's alliances with Major International Education service providers ensure that the Training content ISAN provides is accurate, latest and applicable to the industry requirements always.

Exclusively partnered with CISCO to offer certification programs like CCNA, CCNP, etc.

As Microsoft Solution Provider, ISAN is offering MCPS, MCSE, MCSA, MCITP, MCDBA and MCSD courses.
ISAN Ltd is the largest partner for SUN Microsystems and have set standards in Solaris training across India.

ISAN Ltd has recently tied up with Oracle Corporation to impart authorised training on Enterprise Oracle DBA.

ISAN Ltd has set up a string of Novell education centers based on our status as Novell Education Academic Partner to offer CNA and CNE certification training for corporate and students.

ISAN Ltd is the only Education partner for SCO for training the Indian corporate and students on SCO Unix and UnixWare.

Course Objectives

The strength of our curriculum provides depth to every program. Each year, we train over 5,000 students. This provides us with 5,000 opportunities for feedback for our courses. We integrate this feedback into our training so that it reflects precisely what businesses and individuals need to know.

ISAN's course   contents empower the students to be productive by giving them the mastery of knowledge and skills needed to face real-world challenges. Key elements that drive the ISAN training philosophy:

Productivity Oriented Programs

An analysis of the work performed captures unique aspects of the tasks undertaken and ensures that the training materials are work-oriented. ISAN incorporates references to business processes in its training materials, which ensure that the training program assists participants in performing better on the job.

Industry Relevant Content

ISAN conducts a detailed review of the content to get some ideas about sequencing the training materials in the course. For example, the building blocks of the content need to be taught before the finer points. This expertise in crafting content means that it also draws out the finer points and build skills of all those involved in the training program.

Training Applicability

An analysis of the applicability of training helps determine what effect training can have on improving performance and what other initiatives might be necessary. If it's learned, for example, that there are specific hardware or software requirements to the material being taught, ISAN will ensure that these requirements are addressed during the training session. ISAN is well known for leading-edge training courses. That dedication to staying ahead of the industry that we train continues with offerings covering the hottest topics in IT.

Instruction: Our expert instructors develop and support each of our courses. Our instructors aren't merely teachers; they're 200 of premier IT experts. Their real-world expertise is not only prevalent in the classroom, but shines through in the usability of our high quality corporate Learning programs.

Content: Our innovative content has been our strength since inception. Leveraging the power and flexibility of teaching aids like Transparency slides, our courseware allows for training that can be mixed and matched in just the right amount a student needs to master a skill. Using prescriptive assessments, students only take the training they need.

Our Partner: Pearson VUE

(Authorised Test centre for International Certifications)

Each year millions of people around the world take an exam with Pearson VUE. Chances are you, or someone you know, has recently tested with us. Your neighbor, the computer programmer ... your dad's business, children's teacher, real estate agent or college graduates who wants to go to business school ... all demonstrate their knowledge, skill and commitment when they test with Pearson VUE.

More than 450 credential owners across the globe choose Pearson VUE to help develop, manage, deliver and grow their testing programs. From online practice tests to high-stakes, proctored exams that require the industry's most secure testing environments, Pearson VUE is the leader in computer-based-testing and much more.

About ISAN and Pearson vue

We are very glad to say that ISAN is the one of the franchise test center in East Godavari district and we trained the students for the Pearson vue examination and they can write there exam in ISAN test center itself so students no need to go for Hyderabad to write the test.

International Certification Programs by ISAN

Windows MCP, MCSA, MCSE, MCPS, MCDBA, MCITP, MCSD
Microsoft has come up with a winner in Windows 2000 Network operating system. This product is a result of many years of painstaking research and exemplifies the huge resources at the command of a Network Administrator. Exclusive features like Active Directory Services are highlights of this most popular N.O.S that is enjoying a market share of 62% globally. Exchange 2000 and SQL Server 2000 are the other prominent up gradations by Microsoft and have regained a huge market share by the aggressive selling and intelligent marketing strategies of Microsoft. Since it is installed in more organizations, there is a large requirement of certified MCSE, MCSA & MCDBA.

CISCO Certifications- CCNA, CCNP

Any mention of router refers to Cisco literally in IT industry. Every organization recruits Cisco certified professionals on internetworking and routing. The demand supply gap has consistently been growing in this field. ISAN Ltd trains students on CCNA, CCNP.

Checkpoint certifications

Security specialists bear the responsibility for detecting, reacting to and preventing security incidents, including viruses, worms, denial-of-service attacks, network break-ins, data theft and more. The job is both reactive and proactive as to ensure the physical security of the network as well as the security and integrity of corporate data. Businesses regard enhancing enterprise

network security as a strategic priority. The Checkpoint Certified Security Administrator and Expert (CCSA, CCSE) Program   is offered by ISAN to add security skills that are increasingly valued by employers.

Oracle Database Admin

Oracle is synonymous with Database in IT industry. More than 80% of applications are run on oracle databases. Oracle certified administrators are in constant demand and ISAN Ltd is confident of fulfilling the demand for quality Database administrators.

Regular Courses

ASP.NET, C#.NET&VB.NET, Web Designing, SQL DBA, SQL Server, Core Java, ADV Java & J2EE, ANDROID, iPhone, PHP, Oracle DBA, Testing Tools, C,C ++,VBA Excel, Cloud Computing, Data Warehousing, Linux Administration, MCSE, MCSA, MCPS, MCPIT, CCNA, CCNP, CAD, CAM, Pro-E & SAP

Global Partnerships

Apple Computer India
Apple Computer, India tied up with ISAN Ltd. As partners for Hardware Training. The signing on of ISAN is a sequel to the setting up of an extensive service and support network by Apple in India. The hardware training offered by ISAN will ensure availability of specialized Mac service engineers to support the increasing Macintosh installed base.

ISAN is an Apple Authorized Hardware Training Center, which will offer the International level Apple Tech Support course. A+ certification is backed by a number of leading worldwide and Indian IT companies. The Apple Mac program of ISAN Ltd has a syllabus with special emphasis on setting up, installing, network enabling, maintenance and trouble shooting Macintosh hardware.

Microsoft Corporation India Limited

As Microsoft Solution Providers we are setting up Microsoft Certified Technical Education Centers (CTECs) in India and abroad in the neighborhood.

As a CTEC, ISAN will offer Microsoft Official Curriculum courses both in networking and software.   MCPS, MCSE and MCSD are the international certification courses offered by Microsoft and are in a great demand worldwide.

Oracle Corporation

We have recently tied up with Oracle Corporation's Education services to become Oracle Education Partner. We conduct official Oracle Curriculum courses in Oracle's most popular certification track- Oracle Certified DBA.

Infrastructure
Infrastructure enables the delivery of business value. At ISAN we have an ultra modern, state-of-the-art, fully operational 4 Class Rooms and 4 Labs in   the heart of Kakinada town. Fully equipped with the latest software development tools, hardware platforms, secure communication servers complemented by a round the clock power back up and dedicated high speed data connectivity ISAN effectively meets the client needs and specifications.

The facility also provides spacious custom-built training rooms each containing dedicated training instrumentation for hands-on coaching and several lecture/meeting rooms for presentation style instruction. The facility offers state-of-the-art library all in a comfortable and professional environment.

Faculty Profile

Our Success is founded on our highly qualified, professional team of instructors. We have the best of bread IT professionals, most of whom are certified Professionals in various technologies with proven industrial experience. Our instructors bring together years of experience in working for industry leaders. They have knowledge of and in-depth industry experience in technologies in all the hot areas of today's market -- Internet Technologies, Client-Server applications, Business Application software, Test Automation etc.

At ISAN, we deliver a blend of knowledge, experience, speed and efficiency that is readily engaged, executed and applied to a market needs or business requirements.

Our training methodology is designed with an objective of bridging the gap between the knowledge gained from a classroom experience and practical implementation for real world applications. Our Courteous instructors with excellent presentation and communication skills added with the combination of technical expertise and real world experience are committed to deliver in-depth quality training which help students to learn at their pace using well-tailored training methodology. Our mentoring service is provided before and after a class is delivered. The instructors assist in development, solve problems and generally bring the concepts presented in class to reality in the work place. Our instructors provide constant support to the students by answering their queries through emails and also by one to one session.

Workshops

Workshops support discussion and a collaboration of ideas thus encouraging creativity. Workshops work well when ideas need to be generated and combined Workshops provide a corporate view when there are representatives from various industry domains. ISAN offers workshops in various software technologies catering to various industry domains

Our Workshops can be customized to the needs of corporate organizations where they can request for a workshop on the required software technologies. ISAN' also offers a series of workshops that build on one another. ISAN Workshops are led by highly competent industry drawn IT experts who impart the best training and share their real time knowledge with the participants. One of the best features of our workshops is a small instructor-participant ratio which enables the participant and instructor to have maximum interaction.

Features of ISAN Workshop:

Highly qualified professional team of Instructors

Well defined Course structure to meet the training requirements of the participants.

Support discussion and a collaboration of ideas.

Encourage cooperation among participants.

Customizable Workshops

Tailor the Topics of Workshop

Lab exercises and Supporting Participants workbook.

Have flexibility over length and frequency of sessions.

Small instructor-participant ratio

Weekend workshops to facilitate working professionals.

The workshops are aided by audio- visual teaching methodologies demonstrati professional approach.

Corporate & Industrial Training

As organizations seek to optimize their ROI in human capital, ISAN is one of the best choices for organizations. Our Corporate training programs combine latest theory with a practical real time interactive delivery style enabling clients to take an active part in their 'learning' experience. The goal of corporate training is to develop and enhance individual competencies which align with the framework of organizations requirements to address its business challenges.

ISAN partners with organizations to leverage its powerful training expertise in enabling the organizations to achieve its objective in human capital investments.

Well equipped to perform a thorough and accurate Training Needs Analysis, Enterprise Business Group (EBG) comprising of a dedicated team of product specialists specialized in various high end technologies, work with our clients to plan, develop & deliver an effective curriculum that is most appropriate and deliver optimum value to organizations. Our programs are focused on helping organizations meet or exceed operational performance goals in terms of Effectiveness, Efficiency and Excellence. ISAN Technologies has imparted training on various high-end products to clientele from various Industry sectors, Government organizations, Banks, Financial Institutions and Software Organizations viz., SATYAM, WIPRO, G.E., INNOVA, ECIL, EXCENSYS, TECUMSEH, SQL STAR, VERIZON, KEANE INDIA etc.

Placement Assistance Cell:

Committed to build a long lasting relationship with students, ISA provides Placement assistance to all its students enrolled in the training programs. The vision behind the placement cell is to identify the student with the right skills and guide him to the right job, thus enabling a promising career to the student. With our industry expertise, we understand that company's today require more than a skilled candidate; they reach for employees who are productive, exhibit a positive attitude and have the ability to become a member of their team, to meet this ISAN conducts sessions on Personality Development and Communication skills and provides this as value added service to the students enrolled.
